## China Blue Chip shares quoted in Hong Kong

I have been following several China blue chip shares quoted in Hong Kong. They are undervalued as the stock prices fell during the past two years.

Most of these stocks have low PE ratio (less than 7 times) and good dividend yield (4% or higher).

The prices are at discounts of more than 50% compared to similar stocks in America.

I believe that the stock prices will recover strongly in 2021.

Several of these stocks have already made impressive moves since the start of this year.

I have invested in all of these stocks.

### China Petroleum & Chemical Corporation (0386.HK)
